Guarantee and clauses

This document describes the services available on telephones in the Forum iPhone range connected to a Belgacom Forum 700 or Forum 750. For more information, please consult the User Guide for your Forum™ iPhone 740/750 (IP set) or Phone 740 (digital set). Contact your installer.

Warning: never place your telephone in contact with water. To clean your telephone, you may however use a damp soft cloth. Never use solvents (trichlorethylene, acetone, etc.) which may damage the plastic parts of your telephone. Never spray it with cleaning products. The ear piece and microphone area of the handset may attract metallic objects that may be dangerous for the ear.

The wording is not contractual and may be subject to change. Some functions of your telephone are controlled by a software key and the configuration of the unit.

EC: We, Alcatel Business Systems, hereby declare that we assume the Forum™ iPhone 740/750 or Phone 740 product to be compliant with the essential requirements of Directive 1999/5/CE of the European Parliament and Council.

A copy of the original of this declaration of compliance can be obtained from your installer.

Forum™ iPhone 750 & Bluetooth® handset This device uses a radio frequency spectrum the use of which has not been harmonized in all EC countries. The frequency spectrum may be shared by other applications and its use is subject to the following two conditions: (1) this device may not cause harmful interference, (2) this device must accept any interference received, including interference that may cause undesired operation. This device complies with Class B of part 15 of the FCC (Federal Communications Commission) rules or with the CISPR 22 standard. This device has been designed and manufactured so that it does not exceed the limits in radio frequency energy in SAR (Specific Absorption Rate) established by the different countries concerned.

The SAR (Head and torso) measured is 0.0023 W/kg (the maximum globally accepted limit is 0.08 W/kg). Collection of these products at the end of their product life must be done selectively.

Environmental information

1- The equipment that you bought has required the extraction and use of natural resources for its production. It may contain hazardous substances for the health and the environment. 2- In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems. Those systems will reuse or recycle most of the materials of your end life equipment in a sound way. 3- The crossed-bin symbol invites you to use those systems. 4- If you need more information on the collection, reuse and recycling systems, please contact your local or regional waste administration. 5- You can also contact us for more information on the environmental performances of our products.

Belgacom, in keeping with its policy of constant product improvement for the customer, reserves the right to modify product specifications without prior notice. Copyright © Alcatel Business Systems. 2004. All rights reserved.
