SSD

Customer Case Study

About SSD?

- Belgium Police social service
- ±33 employees
- Manages benefits and social support services for the Belgian Police

What

Proximus assisted SSD with the migration of their datacenter workloads to the Azure Cloud. The migration incorporated:

- The rehosting of Windows servers to Azure Virtual Machines
- Rehosting and optimizing their SQL data platform towards a scalable solution based on Azure SQL Database services.
- Migration of the workplaces to the Azure Windows Virtual desktop solution.
- Industrialization of infrastructure management activities using Azure DevOps and Infrastructure-as-a-code principles to create a repeatable and cloud-native way of working.

Benefits

- A modernized and evolvable IT infrastructure within the Azure Cloud.
- Increased productivity and cost efficiency
- A Uniform cloud workplace, accessible from anywhere and anytime
