Customers can top up their card (online or in store) or subscribe to additional data options.

The data, bonuses and options on the card are deducted after optimization by Proximus according to the validity period of each element.

#### Speeds of the Internet service and remedies

Mobile Internet Access *	estimated maximum speed **	
	Download	Upload
2G	200 Kbps	100 Kbps
3G	21 Mbps	2 Mbps
4G/4G+	220 Mbps	60 Mbps

\* Subject to compatible terminal

\*\* The "estimated maximum speed" is the maximum speed that users can expect to achieve at different locations in the coverage area under realistic conditions. This maximum value results from measurements on the whole national territory and might vary depending on the selected compatible tariff plan, the device performance and your location during the use of the service.

If despite a normal use, the service quality of the Internet service presents a continuous or recurrent discrepancy in comparison with the estimated maximum speed, the consumer can lodge a complaint with the customer service.
