1. Introduction

The BRIO in its section 5 (*Access Service for Calls to particular Value Added Services of the Operator*) describes the way in which Proximus offers access to Freephone, Split Charging, Premium Rate, Infokiosk and Universal Number Services of the Operator and conveyed from the Proximus network termination point at which the Call was originated to the Access Point chosen by the Operator. In section 16.4 of the BRIO the pricing conditions for these services are presented.

The conditions in the BRIO relating to these services have been amended several times through these Addenda:

Addendum N°1: Access Service to particular Value Added Services of the Operator (valid as from 01/03/2006)

Addendum N°11: Access Service to particular Value Added Services of the Operator (valid as from 01/04/2008)

Addendum N°19: Split Charging Number Services (valid as from 01/04/2012)

The present Addendum to the BRIO concerns a voluntary offer of Proximus on the price evolution of these Access Services during a period after deregulation. This Addendum is formulated as a voluntary undertaking by Proximus that would be applicable in the event of deregulation of the relevant market of access to the public telephony network on a fixed location for non-private users.

The sections of the BRIO, which are impacted by this Addendum are indicated in the subsequent paragraphs.

2. Adaptation of Section 16.4

Section 16.4 of the BRIO is amended and completed as follows:

16.4.1 Freephone and 116xxx numbers of the Operator

From an ordinary network termination point:

Tariffs in eurocents				
Type of Call	Setup Peak	Setup Off-Peak	Duration Peak/min	Duration Off-Peak/min
Intra Access Area	1,685	0,884	0,959	0,503
Extra Access Area	1,811	0,950	1,164	0,611

16.4.2 Premium rate, Infokiosk and Universal Number numbers of the Operator

Sections 16.4.2.2 to 16.4.2.6 are replaced with currently applied tariffs (price applicable since 01/05/2010 following the VAT circulaire E.T.109.696 (AOIF Nr. 50/2009) of 12/11/2009).

16.4.2 Calls to OLO Premium Rate Numbers (090X) and OLO Universal Numbers (070)

The tariff is composed of 2 parts, a Transport rate and a Money Transfer rate, that are listed below.

Transport rate

Tariffs in eurocents	National			
PQ	Setup Peak	Setup Off-Peak	Duration Peak/min	Duration Off-Peak/min
090x/070	1,685	0,884	0,959	0,503

Calls to 090X numbers should be disconnected after 10 minutes for number ranges where a retail price per minute is applicable. After the 10th minute, Transport fee as defined in the below table will be applied

Tariffs in eurocents	National			
PQ	Setup Peak	Setup Off-Peak	Duration Peak/min	Duration Off-Peak/min
090x	0,000	0,000	3,476	3,121

Money Transfer rates

For *calls to 070, 0900, 0902, 0903, 0904, 0906 and 0907 numbers* the money transfer rates are calculated according to the following formula:

Set-up tariff (eurocent per call) = 0 eurocent per call

Duration tariff (eurocent per minute)

= 0,560 eurocent per minute + 8,264% of the retail tariff per minute VAT inclusive (eurocent)

Taking into account the retail tariffs applicable at 01/06/2017, the formula results in the following tariffs.

Tariffs in eurocent					
PQ	Retail tariff/Min (TVA incl.)	Setup Peak	Setup Off-Peak	Duration Peak	Duration Off-Peak
070	30,00	0,000	0,000	3,039	3,039
	15,00	0,000	0,000	1,800	1,800
0900	25,00	0,000	0,000	2,626	2,626
	50,00	0,000	0,000	4,692	4,692
0902	75,00	0,000	0,000	6,758	6,758
	100,00	0,000	0,000	8,824	8,824
0903	125,00	0,000	0,000	10,891	10,891
	150,00	0,000	0,000	12,957	12,957
0904	175,00	0,000	0,000	15,023	15,023
	200,00	0,000	0,000	17,089	17,089
0906	25,00	0,000	0,000	2,626	2,626
	50,00	0,000	0,000	4,692	4,692
	75,00	0,000	0,000	6,758	6,758
	100,00	0,000	0,000	8,824	8,824
0907	125,00	0,000	0,000	10,891	10,891
	150,00	0,000	0,000	12,957	12,957
	175,00	0,000	0,000	15,023	15,023
	200,00	0,000	0,000	17,089	17,089

For *calls to 0901, 0905 numbers* the money transfer rates are calculated according to the following formulas:

Set-up tariff (eurocent per call) = 8,264% of the retail tariff per call VAT inclusive (eurocent)

Duration tariff (eurocent per minute) = 0,560 eurocent per minute

Taking into account the retail tariffs applicable at 01/06/2017, the formula results in the following tariffs.

Tariffs in eurocent					
PQ	Retail tariff/call (TVA incl.)	Setup Peak	Setup Off-Peak	Duration Peak	Duration Off-Peak
0901	25,00	2,066	2,066	0,560	0,560
	50,00	4,132	4,132	0,560	0,560
0905	25,00	2,066	2,066	0,560	0,560
	50,00	4,132	4,132	0,560	0,560
	75,00	6,198	6,198	0,560	0,560
	100,00	8,264	8,264	0,560	0,560
	125,00	10,331	10,331	0,560	0,560
	150,00	12,397	12,397	0,560	0,560
	175,00	14,463	14,463	0,560	0,560
	200,00	16,529	16,529	0,560	0,560

For *calls to 0909 numbers* the money transfer rates are calculated according to the following formulas:

Set-up tariff (eurocent per call) = 8,264% of the retail tariff per call VAT inclusive (eurocent)

Duration tariff (eurocent per minute)

= 0,560 eurocent per minute + 8,264% of the retail tariff per minute VAT inclusive (eurocent)

Taking into account the retail tariffs applicable at 01/06/2017, the formulas of above result in the following tariffs.

Tariffs in eurocent						
PQ	Retail tariff/Min (TVA incl.)	Retail tariff/Call (TVA incl.)	Setup Peak	Setup Off-Peak	Duration Peak	Duration Off-Peak
0909	0,00	350	28,926	28,926	0,560	0,560
	0,00	600	49,587	49,587	0,560	0,560
	0,00	850	70,248	70,248	0,560	0,560
	0,00	100	8,264	8,264	0,560	0,560
	0,00	1100	90,909	90,909	0,560	0,560
	0,00	1350	111,570	111,570	0,560	0,560
	0,00	1600	132,231	132,231	0,560	0,560
	0,00	1850	152,893	152,893	0,560	0,560
	0,00	2100	173,554	173,554	0,560	0,560
0909	275,00	350	28,926	28,926	23,287	23,287
	250,00	600	49,587	49,587	21,221	21,221
	225,00	850	70,248	70,248	19,155	19,155
	300,00	100	8,264	8,264	25,353	25,353
	200,00	1100	90,909	90,909	17,089	17,089
	175,00	1350	111,570	111,570	15,023	15,023
	150,00	1600	132,231	132,231	12,957	12,957
	125,00	1850	152,893	152,893	10,891	10,891
	100,00	2100	173,554	173,554	8,824	8,824

Calls to 090X numbers should be disconnected after 10 minutes for number ranges where a retail price per minute is applicable.

Pricing adjustment

The prices detailed in article § 16.4 as mentioned above can be subject to the following pricing adjustment:

Proximus reserves the right to adjust the prices at the beginning of every new calendar year in accordance with the consumption index of FoD Economy and the following price adjustment formula:

$$P1 = PO \times (S1/S0)$$

whereby

P1 = is the new Price applicable from January

PO = the Price applicable in December of the previous year (i.e. Price last applied)

S0 = consumption index FOD Economy of (1) either the month of December preceding the entry into force of the BIPT regulatory decision that deregulates the Access Services, in case of the first indexation of the price, (2) or the month prior to the last indexation of the price, depending on which of these events last took place.

S1 = consumption index FOD Economy of the month of December preceding the indexation applied in January.

3. **Other conditions**

All other terms and conditions of the BRIO including its Annexes as amended remain unchanged and in full force and effect until the termination of the offer.

Except as otherwise provided in this Addendum, this Addendum represents the entire agreement on the subject matter covered by this Addendum.

Any complaint concerning the validity, the interpretation or the performance of this offer can be submitted to the BIPT in its general competence as mediator of the market for electronic communications, as set out in article 14§1, 4° of the Law of 17th January 2003.

The present addendum is valid until 31/12/2019 unless the market conditions change before. In that case Proximus reserves its right to review the present voluntary offer to take into account the new market conditions.
